I. General description and use

Hammer conversion circle HCC-2135-T is designed to reduce the throwing circle inside diameter from 2500 mm to 2135 mm. The elements are put inside the discus throwing circle.

II. Technical specification

III. Operation and maintenance

After each athletics season the conversion circle should be cleaned and stored in a dry, roofed place.

IV. Packing and transport

The conversion circle is packed in foil and sent on a pallet.
